

Hertfordshire's School Improvement Strategy

Gillian Cawley

Assistant Director, Commissioner for
Education Services

February 2014

Hertfordshire's school improvement strategy – the aims of the session are to:

- explain the rationale and context for refreshing Hertfordshire's strategy
- outline the vision and aims of the strategy
- share the data behind the setting of priorities
- clarify the role of the LA, Herts for Learning and schools in school improvement and the MCSI framework
- gather feedback and reflections to inform the final published document

The world has changed but some things haven't!

- Significant shift in educational policy and funding since 2010
- Autonomy and diversity of schools – academies, free schools, UTCs, studio schools
- Changing role of LA – strategic commissioner and champion but...
- LA retains statutory duty “ to promote high standards so that children and young people achieve well and fulfil their potential” 1996 Education Act
- System led school improvement - **school to school support embodied now in Herts for Learning**
- Increasingly demanding Ofsted framework – for schools and LA
- Monitoring Challenge Support Intervention (MCSI) framework still applies
- Some LAs have lost the S (Support) ...and some their C (Challenge) but the requirement remains

Hertfordshire's vision and aims for education

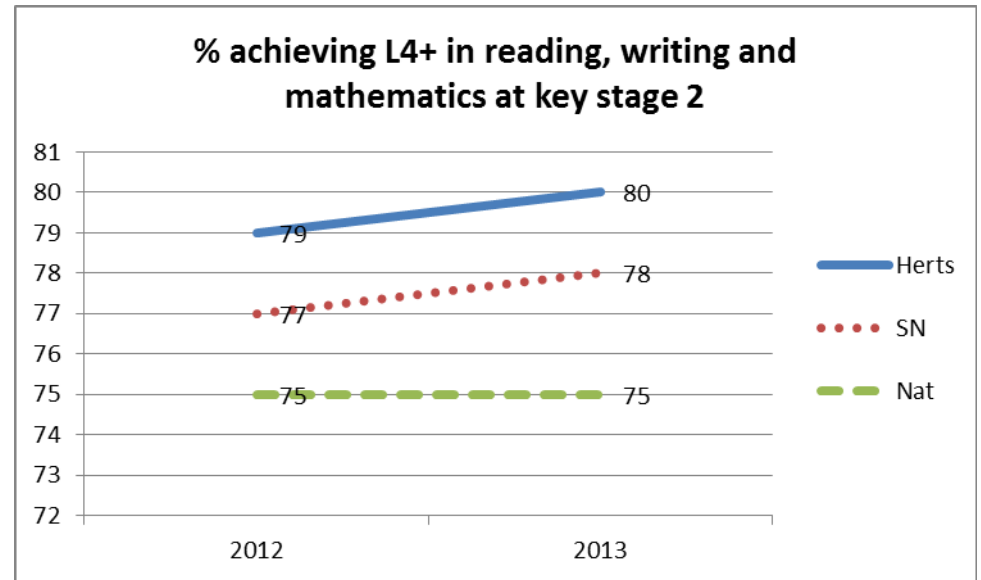

- **A good school for every child** – corporate plan
- All children and young people benefit from a world class education and achieve the best possible educational outcomes
- Closing the gap in attainment and well being for underachieving groups and districts

So how are we doing?.....

Priorities 2013-14

1. Ensure a good or outstanding school for every child and young person
2. Close the gap and improve outcomes for underachieving groups
3. Address discrepancies in attainment at 'district' level

Meeting the Priorities

LA as commissioner of school improvement services

Herts for Learning commissioned to deliver

- statutory duties – MCSI framework, support for governance
- a range of core services eg. anti-bullying
- additional LA priority projects eg. “closing the gap for underachieving groups”

Herts for Learning also offers schools a wide range of traded school improvement and support services shaped to meet school needs including Hertfordshire Improvement Partners

Meeting the Priorities

System-led leadership and school to school support

- ***"The new system recognises that expertise lies within schools..."***

Hertfordshire has strong links with Teaching School Alliances - National and Local Leaders of Education

- ***"Local authorities have a critical role to play in a school-led improvement system...through creating an "enabling environment" within which collaboration can flourish"***

Herts for Learning embodies school led partnership in Hertfordshire.

Priorities for Improvement (2014 – 2015)

Increase the number of good or better schools and settings

- Improve holistic intelligence and early alerts to identify schools at risk within the changing inspection framework
- Work with Teaching School Alliances to refresh 'Lead in Herts' programme to accelerate improvements and capacity in leadership
- Develop a countywide approach to sharing best practice and evidencing impact
- Provide support to recruit and retain high quality staff

Priorities for Improvement (2014 – 2015)

Close the gap for vulnerable groups whilst maintaining high levels of attainment

- Support an improved understanding and use of data
- Share best practice of what works with specific groups through the Exchanging Excellence –Closing Gaps project
- Focus on strategies to support pupils with lowest prior attainment
- Develop research based pilots and projects and systematically share findings

Priorities for Improvement (2014 – 2015)

Achieve greater geographical consistency in outcomes across the county

- Invest in targeted projects across lower attaining districts
- Support a cross cutting recruitment drive to support schools in areas of shortage
- Work in collaboration with teaching school alliances and clusters to raise profile of high priority areas and target resources accordingly
- Ensure sharing best practice includes examples from areas with similar schools and relevant geographical characteristics

What will Ofsted inspection of LA school improvement want to know and...

what would your answer be?

- How well does the local authority know your school, your performance and the standards your pupils achieve?
- What measures are in place to support and challenge your school and how do these meet the needs of your school?
- What is the impact of the local authority support and challenge over time to help your school improve?
